

# Pre Order Information

## DIT BOX MKIV

Upgrade Innovations and Chromatic Pictures are very excited to bring you further details in regards the DIT BOX system. This document will cover pricing, pre order information, options available and the production timeline.

Please note that the DIT BOX **DOES NOT** ship with the following components: FSI BOX IO, CalDigit, AJA KUMO, Decimator, or Black Magic Quad 2 or Duo 2. We build the box to house these components. Please purchase these devices from an authorized local supplier.

mounting onboard monitors/scopes or  
Iris hand units

## **DIT BOX Pre Order Information**

The DIT BOX system is available **ONLY** via preorder during designated ordering windows. We are currently accepting pre orders for the above DITBOX options from now **until October 7th, 2022**.

*Note, Upgrade Innovations must receive the minimum target of DIT BOX pre orders by October 7th to go forward with production.*

The estimated build time for the DIT BOX system, starting from October 10th, 2022, is 16 weeks. Based on the production timeline, we would expect to ship out units by the beginning of February, 2023.

### How Do I Pre Order?

Email [ditbox@upgradeinnovations.com](mailto:ditbox@upgradeinnovations.com) designating which DIT BOX option you are interested in.

Upon confirmation, Upgrade Innovations will provide a PayPal invoice link for the listed non-refundable deposit.

### When will the build be done?

Beginning of February 2023. Note, you must have pre ordered during the designated window to be eligible to receive a unit.

### Shipping?

The DIT BOX will ship via DHL to USA and other international countries. Within Canada, the DIT BOX will ship via FedEx. Shipping charges would be applied to final invoice.

*Orders shipped outside of Canada are subject to import duties, taxes, and custom processing fees.*

### What do I need to order separately from Authorized Vendors?

You will need to order the following items to install into your DIT BOX to complete the build.

We provide all the power cables and mounting hardware for these devices to be installed:

- AJA Kumo 3232 or 1616
- 1 or 2 Flanders Scientific BOX IO LUT boxes (or 3 if getting the additional add-on)
- Decimator DMON-QUAD
- Video Capture Card (refer to Sonnett compatibility PDF, and note that only single slot capture cards are supported)
- CalDigit TS4+ or TS3+
- Macbook Pro

### Additional DITBOX Details?

Check out the DIT BOX Manual or visit the DIT BOX product page. Contact us if you have not received a pdf of the DIT BOX Manual. *Note, the DIT BOX Manual for the Mk4 system will be completed sometime in January/February 2023 to properly showcase the latest updates. Stay tuned!*
